### **PINK GROUND, FARROW & BALL**

“[Farrow & Ball's Pink Ground](#) is soft, warm, and tender and it looks great with any color. It can be sophisticated and also very youthful. I love it with a great red and conversely with a deep emerald green. It must be called Pink Ground for a reason...it looks like its neighbors on the color wheel as well as its opposition. It's a flattering color on everyone, especially when applied to the ceiling.” — Liz Caan, [Liz Caan & Co.](#)
